About Me

I am looking for a career in IT where I can gain some knowledge. As a fresher Student looking for a platform where I can showcase my knowledge and skills.

Project

1. Petrol Delivery Website (College Project)

- This website allows users to order petrol right to their doorstep.
- the user simply needs to specify their location and how much petrol they want
- **Technology Used** : PHP, HTML, CSS, MYSQL

2. College Website

- This website is for students. students have to just log in and they can check their results and upcoming important things like exam dates, time table, and check results. and students can also apply for the course
- **Technology Used** : PHP, HTML, CSS, MYSQL

3. management system

- This website can be used in any sector like office, college, school, etc.
- its a simple management system .
- **Technology Used** : PHP, HTML, CSS, MYSQL
